

About the FIRST Robotics Competition

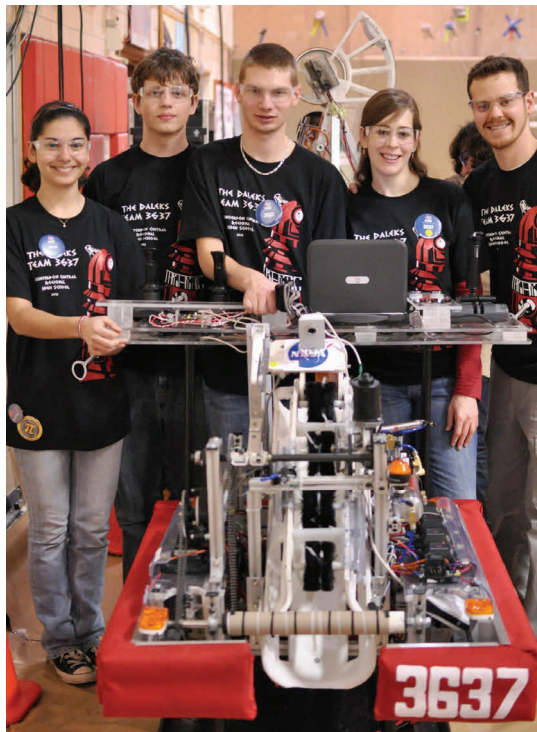

FIRST[®] – “For Inspiration and Recognition of Science and Technology”

FIRST[®]'s vision: “To transform our culture by creating a world where science and technology are celebrated and where young people dream of becoming science and technology leaders.” –**Dean Kamen**, visionary and founder of **FIRST**[®].

FIRST[®]'s mission “is to inspire young people to be science and technology leaders, by engaging them in exciting mentor-based programs that build science, engineering and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication, and leadership.”

This year, over 293,000 students, 26,800 teams, 51,000 mentors and 50,000 other volunteers (and 24,000 robots!) will take part in **FIRST**[®] programs. **Team 3637**, now in its second season, is a proud participant in the **FIRST**[®] Robotics Competition (FRC).

To get involved with our team, e-mail us at team3637@gmail.com or visit our website, www.Team3637.com.

About the Daleks

We are The Daleks from **Hunterdon Central Regional High School** in Flemington, New Jersey. This is our second year in the FIRST® Robotics Competition (FRC). Our team is young but enthusiastic, and proud to be participating in *FIRST*® and representing our school.

Team 3637 was founded last year by a group of students who had formerly been involved with robotics. The team had an exciting first season and received the 2011 Rookie Inspiration Award!

This year, Team 3637 consists of 29 students: 9 freshmen, 9 sophomores, 5 juniors, and 6 seniors. Visit our website to see pictures and videos of us in action, and to get involved!

Mission Statement

The mission of Team 3637 is to expand our knowledge of STEM and to expose the younger generations to STEM.

THE PURPOSE: Our purpose is to expand our understanding in the STEM field and build leadership skills and other necessary skills for work in the future.

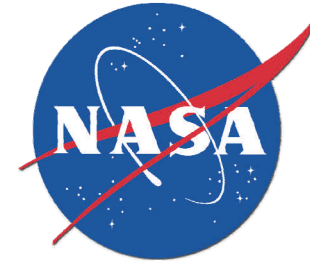

THE BUSINESS: Acquire funds necessary for building the robot and running a FIRST Robotics team. Also advertising the team to gain support and members throughout the school and community.

THE VALUE: We value honesty, integrity, leadership, confidence, intelligence, and cooperation.

Plans for the Future

In order to be more successful, changes need to be made. For a FIRST Robotics Competition team, community outreach plays a big part in the success of the team. In our upcoming season, we plan on increasing the knowledge of FIRST in our community and increase enrolment. With an increase in members, we can add to the possibilities of what our team can accomplish.
